## FEDERAL TRADE COMMISSION

### CIGARETTE TESTING RESULTS

#### Tar and Nicotine Content

The Federal Trade Commission's laboratory has determined the "tar" (dry particulate matter) and total alkaloid (reported as nicotine) content of 167 varieties of domestic cigarettes. The laboratory utilized the Cambridge filter method with the specifications set forth in the Commission's announcement dated July 31, 1967 (32 FR 11178). The varieties are arranged in alphabetical order with tar values rounded to the nearest whole milligram and nicotine values rounded to the nearest tenth of a milligram.
